

LAST NIGHT'S SESSION OF BORO LEGISLATURE WAS BUSY ONE

The regular meeting of Council in the borough building last evening was attended by eight of the twelve members of Council and President Fletcher presided. Burgess Chase was also present.

Treasurer Whiteman's report showed the following balances:—

General Boro Fund	\$1,296.58
Bond Fund	9,907.57
Light and Water Fund	3,425.90
1916 Improvement fund	4,085.33
Shade Tree Commission	26.39
Firemen's Relief Fund	351.79
Total	\$19,093.56

Tax Collector Jacobs reported collections of \$286.42 during April.

Burgess Chase reported 6 arc and 7 small lights out during the month; 25 arrests during April and turned in \$67.60 in fines and \$86 in licenses during that period.

Bills totaling several hundred dollars were presented and ordered paid.

Engineer Hess reported on proposed sanitary sewer on Bigler avenue and stated that its construction from Sixth street down would remedy unsanitary conditions at present. The Sewer Committee recommended that the sewer be constructed but before action was taken on the recommendation President Fletcher declared that the matter of finances was the vital thing, as the estimates of the Engineer for this sewer which were made in April of 1916 called for an expenditure of \$3500. In this estimate it was calculated that the sewer, which was to be of 12-inch pipe, would cost 75c per foot laid, at present prices you cannot buy the pipe alone for that price, and as the sewer could be assessed against the property abutting on but one side it would mean an expense larger than the general borough fund could stand under the present millage. The matter was then referred to the Sewer and Finance Committee for report at next meeting.

The Engineer also recommended the planting of poplar cuttings on the bare slopes along Cemetery Road and Clark street for the purpose of stopping the wash that goes down Locust and Market streets and fills up the Fourth street sewer.

Secretary Wilson of the Board of Health reported a total of 160 cases of communicable diseases in Clearfield so far during 1918 or an average of 40 per month.

They were as follows:

Liberty measles	90
Measles	2
Chicken pox	62
Whooping cough	3
Diphtheria	1
Scarlet fever	1
Total	160

Some idea of how the health rules are not obeyed in Clearfield can be gathered from this passage in the Secretary's report:—"Out of these 160 cases, but 73 were reported to the Board of Health by the doctors, the remaining 87 cases having been located and quarantined by the Health Officer".

There is under quarantine at the present time two cases of Liberty measles and three of diphtheria.

The Secretary also reported that a lot of preliminary work for Clean-Up Week had been done.

Petition of H. S. Mann and Ellsworth Flegal for information regarding sewer extension on Ogden avenue was referred to the Sewer Committee.

A petition numerously signed asking that steps be taken to keep the Market and Second street bridges cleaned of mud and dirt was read and the Secretary was directed to turn same over to the County Commissioners, who have jurisdiction over the bridges.

Chairman Gallaher of the Finance Committee reported receipt from County Treasurer Kline of a check for \$960, being amount of the borough's share of the 1918 liquor license fees.

Mr. Gallaher also reported that his committee had invested \$1000 of the Firemen's Relief Fund in Third Liberty Loan Bonds.

Council ordered that 100 watt Tungsten lights be placed on River street in rear of glass factory, on East Pine street and at the head of Ninth street in Fourth Ward.

It having been brought to the attention of Council that Lawrence Larnich had tapped Spruce street sewer without a permit and was running surface water into same, the Secretary was directed to notify him of this violation of the ordinance and State Health Board rules and instruct him to disconnect such sewer at once.

Council then adjourned to meet Monday evening, May 20, at 8 o'clock.

THE LULL BEFORE THE BIG STORM EARLY GERMAN ATTACK LOOKED FOR

HINDENBURG'S LEGIONS RESTED AND REFORMED MAKE READY FOR DOUBLE OFFENSIVE SAYS GERMAN NEWS

WILL STRIKE FLANDERS AND ITALY

By United Press

Resumption of the German offensive on the western front may be expected very soon according to dispatches from Wm. Philip Simms today. The United Press staff correspondent with the British army in France reports that during the past few weeks Hindenburg has reorganized his shattered divisions. 140 of the 206 available German divisions have been used without the attainment of a single one of the successes promised the German people. While some of these are badly battered losses in the others were comparatively slight.

The western front was comparatively quiet again today according to General Haig's report. We captured a few prisoners and three machine guns in a successful raid last night in the neighborhood of Neippe (3 miles southeast of Arras) the British commander reported. Our troops suffered slight casualties. An attempted enemy raid near Bayelles (6 miles south of Arras) was repulsed. American troops continue to pour in, the newspapers of Paris declare.

Amsterdam, May 7.—The German press declares the resumption of the western front offensive will be aided by the huge offensive on the Italian front, it was learned here today. "The combined efforts will thus bring the longed for German success," German newspapers say the beginning of the western front offensive was definitely forecasted in the German press.

Amsterdam, May 7.—The German press declares the resumption of the western front offensive will be aided by the huge offensive on the Italian front, it was learned here today. "The combined efforts will thus bring the longed for German success," German newspapers say the beginning of the western front offensive was definitely forecasted in the German press.

FOOD ADMINISTRATION SAYS NEED FOR SUGAR SAVING IS URGENT

That there is urgent need to conserve sugar is shown in the following telegram from State Food Administrator Heinz to County Administrator, which supplements the general order issued yesterday and which also appears herewith:

Philadelphia, Pa. May 6
JOHN F. SHORT,
Clearfield, Pa.

If we are to successfully meet the heavy sugar demands of the fruit preserving season we must at this time begin to accumulate a surplus in the hands of the trade which we cannot do if consumers are allowed to purchase and use sugar freely. Grocers are accordingly forbidden to sell sugar in quantities greater than two to five pounds to town trade or five to ten pounds to rural trade and any violation of this rule by any grocer regardless of the amount he may have on hand will invite drastic retributive action by the food administration. As a sugar conservation measure the service in public eating places of sherbets and water ices and their commercial manufacture is strictly forbidden. Public must understand that the sugar shortage is real and acute and it is imperative that family consumption for ordinary uses be kept down to at least twenty per cent. below normal. Only in this way can we take care of home preserving requirements.

HEINZ

Washington, May 6—Further curtailment of sugar consumption was ordered today by the United States food administration, effective May 15, when all manufacturers using sugar except for essential food products will be limited to 80 per cent of their normal supply. This ruling will be retroactive to January 1, 1918, so that the actual curtailment between now and the end of the year will be much greater.

A cut of 50 per cent of normal will be ordered in the cases of firms which have been established or expanded between November 1917 and April 1918, in the face of an actual sugar shortage.

Those who entered the business since April 1918, or since the United States declared war will be cut off entirely.

These definite classifications protect the patriotic manufacturer who has been observing the requests of the food administration against competitors who have taken advantage of the Lorraine sector, May 7—The enemy is showing uneasiness along the left bank of the Meuse in the Verdun sector. This is manifested every night by the use of brilliant lights and by much artillery and machine gun firing and aeroplane activity. In the sector northwest of Toul there is heavy firing in the vicinity of Seicheprey. The Germans temporarily captured ground here but it was won back by Franco-American counter attacks. American patrols reported the German lines are sparsely held on all the American sectors indicating the enemy has drawn all the men possible from the entire front here to fill up gaps in the Picardy front. This probably accounts for their uneasiness.

FOLLOWING IS A COMPLETE LIST OF THE CANDIDATES TO BE VOTED FOR MAY 21

Following is the official list of candidates for the different state and district offices as their names will appear upon the ballots, for Clearfield county at the primary election to be held Tuesday, May 21st, 1918:

A FIRST CLASS BAND IS REAL NEED OF THIS PATRIOTIC COMMUNITY NOW

The action of the Clearfield Fire Department in deciding last Friday evening to take up the community burden by organizing a band met with universal approval of our public spirited citizens, who have been appreciating the need of a creditable town musical organization ever since the Fifth Regiment band was forced to disband on account of so many of its members joining the colors.

We need a good band very much and the need becomes more apparent every day and will continue so to do. The Clearfield Italian band has been attempting to supply the need and have acquitted themselves nobly and deserve great commendation for their patriotic efforts, but we need another band and are now in a fair way to get it.

There are some twenty or twenty-five old band men in the different fire companies and these will be enrolled as a nucleus for the new band. In addition thereto all local musicians will be asked to volunteer their services and we believe a large majority of the old band men will consider it their patriotic duty and again "don the spangles," so to speak, as a matter of community or town pride.

Let every public spirited citizen assist the firemen in their efforts. We have the material here for a first-class band and should and will have such a band if everybody will lend a hand. Boost the movement and encourage the Fire Department in the work. It means much to the town.

Many of the prospective members have their own instruments. It will be necessary to provide some others. If you feel like helping financially in the movement and desire to do so now, send or hand your subscription to The Progress. We will properly acknowledge same and have the money placed in the band treasury. Label your subscriptions Clearfield Municipal Band fund and we will do the rest. No solicitors will be employed and no hounding done, but if your patriotic feeling runs in the direction of the necessity for a good band, volunteer your financial support in the manner suggested. In the meantime boost the project. The Fire Department is going to do the rest and will guarantee you a good band.

The entertainment is worthy of a good attendance, so turn out and help the legion along in their effort to raise money for such a worthy cause.

Life is not merely to live but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal, before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have sallow skins, blotchy disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Save Dad's Life
GET IT FOR HIM

Says it is suicide to cut corns and tells how they lift right out

You simply say to the drug store man, "Give me a quarter of an ounce of foot-ease." This will cost very little but is sufficient to remove every hard or soft corn from one's feet.

A few drops applied directly upon a tender, aching corn should relieve the soreness instantly, and soon the entire corn, root and all, can be lifted out with the fingers without pain.

This new way to rid one's feet of corns was introduced by a Clearfield man, who says that while foot-ease is sticky it dries in a moment and seems to simply shrivel up the corn without inflaming or even irritating the surrounding tissue or skin.

Don't let father die of infection or lockjaw from whitening of his corns, but cut this out and make him try it.

Greatest Array Of Public Men
Ever Assembled Will Hold
Stage At Witherspoon Hall

GERMAN PEACE TERMS TABOO

Philadelphia, May 6.—The "win the war for permanent peace" convention, which is to meet in this city next week under the auspices of the League to Enforce Peace, will bring together a host of the foremost men of the nation. The list of delegates that are to attend from various States has grown until an attendance of several thousand is assured.

The League to Enforce Peace, under whose auspices the convention is to be held, was organized in Independence Hall three years ago, when there was but little thought of the United States entering the world war, but in spite of change in conditions the aims of the league remain the same. It is an organization of the nation's leading men, who have outlined a plan whereby they believe the world might be kept from war in the future. In the midst of this great conflict they are going to meet to discuss peace—not immediate peace with Germany, but real, lasting peace of the future.

It is stated positively that there will be no demand made for an immediate peace; in fact, practically every member of the league is in favor of carrying on the war with the utmost vigor until Germany is brought to a realization of its crimes and made to give the world assurance that its peace will not be violated by greedy military imperialists in the future. The real purpose of the convention is thus set forth in the call for the gathering:

"To sustain the determination of our people to fight until Prussian militarism has been defeated; confirm opposition to a premature peace and focus attention upon the only advantage the American people are hoping to gain from the war—a permanent peace guaranteed by a league of nations."

Former President William H. Taft, in his capacity as president of the League to Enforce Peace, will preside over the sessions of the convention and will deliver one of the principal addresses. It was originally intended that the convention should last three days, but it was found that the last day of the meeting would coincide with the opening of the Red Cross Fund Campaign. Therefore, as many members have agreed to take part in this drive in various parts of the country, it was decided to condense the convention into two days, with morning, afternoon and evening sessions each day.

On the morning of Thursday, the opening day, the delegates will gather in Witherspoon Hall for the keynote session, with Dr. Taft presiding. George Wharton Pepper will open the discussion with an address on "The Struggle for World Freedom." He will be followed by Dr. Taft on "America Seeing It Through"; Edward A. Filene of Boston, on "The War and the Individual"; Dr. A. Lawrence Lowell, president of Harvard University, on "Safeguarding the Future"; and Rabbi Stephen A. Wise, on "Battling for a New World."

At the Thursday afternoon session, Richard Heath Dabney will discuss "Germany's Dream of Dominion," followed by W. Morgan Shuster, on "An Efficiency Without Soul"; John Spargo the noted Socialist, on "A Made in Germany Socialism"; Dr. Anna Howard Shaw, on "The Degradation of Childhood and Womanhood"; Charles B. Elliott, on "German Exploitation of Backward Peoples," and Robert McElroy, on "Kultur: Its Attempt to

Educate the World."

Charles E. Hughes, Oscar S. Strauss and Dr. Lyman Abbott will be among the distinguished speakers who will be heard at the Thursday evening session, which will be held in the Academy of Music. At the sessions of the following day the speakers will include John Sharp Williams, United States senator from Mississippi, Bishop Thomas J. Shahan, and Dr. Henry Van Dyke.

One of the most important features of the program will be the concluding dinner, to be held Friday night at the Bellevue-Stratford, with former President Taft acting as toastmaster. All the larger Allies will be represented either by their ambassadors or by high officials. Lord Reading will speak for Great Britain, Ambassador Jervand for France, Viscount Ishii for Japan, and General Guglielmetti for Italy. Alton B. Parker and Nicholas Murray Butler will speak for the United States.

FIRE DEPARTMENT MEETING

There will be a special meeting of the Clearfield Fire Department at No. 1 Hall on Thursday evening at 8 o'clock. Every fireman is urged to be present as the new band and other important business will be transacted. By Order of the Chief,
A. P. SPANGLER,
Secretary.

The young people of Clearfield are cordially invited to attend a social, given by the Epworth League at Trinity M. E. church Thursday evening, May 9th, 1918. Music and light refreshments. Admission 15c. All young people welcome.

Martha Iames,
Pearle Moore,
Horace Flegel,
M7-2t-pd Committee.

LOCAL COLLEGE BOY HONORED

T. Cortez Bell, son of Judge and Mrs. Singleton Bell, who is a student at Michigan University, was recently made a member of the Michigan campus honor society connected with the university. This recognition is given for meritorious service and the accessions to the society are limited to but twelve per year.

For Itching Torture

There is one remedy that seldom fails to stop itching torture and relieve skin irritation and that makes the skin soft, clear and healthy.

Any drugstore can supply you with zemo, which generally overcomes all skin diseases. Acne, eczema, itch, pimples, rashes, blackheads, in most cases give way to zemo. Frequently, minor blemishes disappear overnight. Itching usually stops instantly. Zemo is a safe, antiseptic liquid, clean, easy to use and dependable. It costs only 35c; an extra large bottle, \$1.00. It will not stain, is not greasy or sticky and is positively safe for tender, sensitive skins.

Announcing--- The Opening of the Workman's Self Serve Grocery Thursday, May 9--9 A.M.

A pure food store that will serve to reduce the cost of living—a store that will be an innovation in the distribution of eatables—a store with expenses reduced to a minimum—a store where prompt service is the key note—a store with shelves and tables filled to overflowing with savings—your store because you wait on yourself just as you do from your pantry shelf at home.

HOW THE SELF-SERVE GROCERY OPERATES

Many things that have contributed to the perpetual rise in market costs are eliminated. This "self serve" idea, is the height of economic distribution. You wait on yourself and do away with the host of clerical hire. You pay cash—eliminating bookkeeping and bad accounts. You carry your purchases home—doing yourself what you had heretofore paid for having done.

YOU ENTER THE SELF-SERVE STORE

Entering the door of the room formerly occupied by the Express Company you pick up a basket placed for your convenience or you may bring your own if you wish to carry your purchases. There is no charge for the use of the basket unless you take it home.

WAIT ON YOURSELF

Line both sides of the store with tables in the center on which will be placed specially priced articles. Roam around. Pick out what you want then take your selections to the cashier who is located at the exit where the amount of the purchases will be totaled on an adding machine, eliminating error, and you pay the cashier the total amount shown on the slip.

EXAMINE AND COMPARE

Every visitor to the Self-Serve Grocery, whether desiring anything or not, is invited to examine minutely everything on display in the store. Nothing but standard articles will be on display in the Workman's Self-Serve Grocery.

NO LEADER SPECIALS

At the Workman's Self-Serve Grocery there are no sensational low prices on any one article.

CUSTOMERS DOING IT BETTER

The low prices at the Workman's Self-Serve Grocery are possible because every woman, man, boy and girl who shops at the Workman's Self-Serve Grocery as his or her own individual clerk. No expense.

Fifty people trading at the same time would require fifty clerks provided each of these people were served at the same time and should they not get waited upon at the same time those who came first would get the preference.

YOUR OWN BOSS

At the Workman's Self-Serve Grocery fifty or a hundred people can get service at the same time because each of them can help himself or herself to that which they want without interruption and without persuasion from a too zealous clerk, without annoyance from a too talkative clerk, or a too partial clerk.

FOR ALL PEOPLE

The Workman's Self-Serve Grocery is to be the people's store, the people's very own, individually and collectively.

TELL YOUR OWN STORY

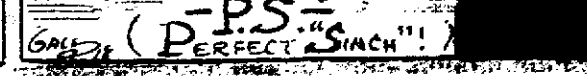

When the Workman's Self-Serve Grocery Consumers have found the Workman's Self-Serve Grocery to their liking he or she should tell their neighbors.

THE PRODUCE SECTION

In a room we formerly used for groceries we aim to have at all times the freshest and best produce obtainable. Here efficient sales people will wait on you and wrap your packages.

Marcel Gets His Barn Mended

Red Cross Helps This 15 Year Old French Boy—and His Family.

Marcel is a man. He is just fifteen years old, but yet he is a man. I say he is a man because in the last four years' time has burned into his child heart marks that should wait for stern maturity. He is a man because he has the responsibility of a woman. He has no father. The Germans saw to that. Marcel has had to stand by and see his small brothers and baby sister ask in vain for food while he fought off the pressing call from his growing boy's stomach. He has had to see tears from his mother's eyes drop on the plowed ground as she worked the soil his father would have tilled had he not gone away out of the peacefulness of the Marne valley into the iron hall of the Aisne and on into the here-after.

The boy, who was now a man, worked hard, yes, too hard. With his hairless hands and his boy's strength he fought almost alone the unequal fight against want with what little help his frail mother could give.

Mother Can Keep Children.

One of the 70 or 80 local societies in France, handicapped by lack of funds because deluged by calls for help, tried to relieve the family by taking away the children. But to the torture twisted brain of the woman this seemed like losing all she had.

And then when everything seemed lost and despair came they heard the news: "No, it could not be true. They would help them with food and clothing? They would till the soil? Mend the barns and stay near by to see that things went well?" Yes, and the children could stay, said the Red Cross, as they had said to hundreds of others.

That was two years ago. Today this family is self supporting and has some to spare for the more needy ones, who still are being helped. Little Jean is taller. He looks well fed—and he is well fed. The baby is so roly poly that the dimples have come again. They are in good spirits—on their feet once more.

And Marcel. He has finished the course that the Red Cross gave him in an agricultural school. It is he who has been running the farm so well. He did it all. At least they let him think so, for heaven knows he has seen the bottom of the bitter cup. And I know that the Red Cross will want me to say he did it, for that is the way they work—quietly, earnestly, efficiently, without stint, without waste, without boast.

THE LITTLE OLD LADY OF PANSY SQUARE

Timidly she entered the Red Cross Bureau and stood just within the doorway.

Her poor, dimmed old eyes spoke so eloquently: "I'm friendly, ladies, but a little afraid."

Several of the rose, but Mrs. Crawford reached her first and asked her to come in and sit down.

"Oh, thank you so much," quavered the old lady as she sat down. "You see, my boy—my grandson—has gone and"—with Spartan fortitude she restrained the tears that glistened in her eyes—"gone with his regiment. Now I'm all alone in my little cottage in Pansy Square. And, oh, ladies, do any of you know the dreary loneliness when there is no one who comes home at night?"

We almost hugged the dear old lady, so forlorn, yet so brave. We drew up our chairs closer, and she told us her story.

The little old lady owned a vine embowered cottage in Pansy Square. There she kept house for her grandson, who worked in a downtown office. When America took up cudgels for democracy the lad, in patriotic fervor, was among the first to enlist.

"Ah, how I loved him and needed him!" whispered the old lady brokenly. "But my dear country needed him more. So I told him to go. 'But what will you do, granny?' he asked. I told him I had enough, and so he went. Brave, brave heart! My husband was a soldier, and I have his pension. But it is small. After paying the taxes on my cottage there was little left, and now it is gone. I'm old, but I'm willing. All I ask is a chance to earn my bread till—till he returns."

Through the Home Service workers of her community the little old lady, with simple tasks, such as making preserves and delicious cakes and jellies, a labor of love for her and an unfailing source of revenue.

Some day, please God, her soldier boy will come back to the little old lady of Pansy Square, and he will find her as he left her—happy, comfortable and self reliant.

The ladies of the Episcopal church are most cordially invited to spend Thursday afternoon with Mrs. George Bigler.

\$1.50 YARD-WIDE MESSALINES AT 98c

Full yard wide messalines in a splendid selection of plain shades. We consider this one of the best values we have offered in a long time.

A. W. LEONARDSON CO.

GASS OF SALTS CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots of water

When your kidneys hurt and your back feels sore, don't get scared and expect to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

HEAR ME, YE WINDS AND WAVES

Those who know Handel only through the "Largo" and "The Messiah" will be delighted to hear Witherspoon sing the declamatory passages of this majestic melody. A 12-inch Red Seal \$1.50. No. 74513.

CLEARFIELD CENTRAL GARAGE COMPANY
 Rear Dimeling Hotel

LAST NIGHT'S SESSION OF BORO
LEGISLATURE WAS BUSY ONE

The regular meeting of Council in the borough building last evening was attended by eight of the twelve members of Council and President Fletcher presided. Burgess Chase was also present.

Treasurer Whiteman's report showed the following balances:—

General Boro Fund	\$1,296.58
Bond Fund	9,907.57
Light and Water Fund	3,425.90
1916 Improvement fund	4,085.33
Shade Tree Commission	26.39
Firemen's Relief Fund	351.79

Total \$19,093.56

Tax Collector Jacobs reported collections of \$286.42 during April.

Burgess Chase reported 6 arc and 7 small lights out during the month; 25 arrests during April and turned in \$67.60 in fines and \$86 in licenses during that period.

Bills totaling several hundred dollars were presented and ordered paid.

Engineer Hess reported on proposed sanitary sewer on Bigler avenue and stated that its construction from Sixth street down would remedy unsanitary conditions at present. The Sewer Committee recommended that the sewer be constructed but before action was taken on the recommendation President Fletcher declared that the matter of finances was the vital thing, as the estimates of the Engineer for this sewer which were made in April of 1916 called for an expenditure of \$3500. In this estimate it was calculated that the sewer, which was to be of 12-inch pipe, would cost 75c per foot laid, at present prices you cannot buy the pipe alone for that price, and as the sewer could be assessed against the property abutting on but one side it would mean an expense larger than the general borough fund could stand under the present millage. The matter was then referred to the Sewer and Finance Committee for report at next meeting.

The Engineer also recommended the planting of poplar cuttings on the bare slopes along Cemetery Road and Clark street for the purpose of stopping the wash that goes down Locust and Market streets and fills up the Fourth street sewer.

Secretary Wilson of the Board of Health reported a total of 160 cases of communicable diseases in Clearfield so far during 1918 or an average of 40 per month.

They were as follows:

Liberty measles	90
Measles	2
Chicken pox	62
Whooping cough	3
Diphtheria	1
Scarlet fever	1

Total 160

Some idea of how the health rules are not obeyed in Clearfield can be gathered from this passage in the Secretary's report:—"Out of these 160 cases, but 73 were reported to the Board of Health by the doctors, the remaining 87 cases having been located and quarantined by the Health Officer".

There is under quarantine at the

present time two cases of Liberty measles and three of diphtheria.

The Secretary also reported that a lot of preliminary work for Clean-Up Week had been done.

Petition of H. S. Mann and Ellsworth Flegal for information regarding sewer extension on Ogden avenue was referred to the Sewer Committee.

A petition numerously signed asking that steps be taken to keep the Market and Second street bridges cleaned of mud and dirt was read and the Secretary was directed to turn same over to the County Commissioners, who have jurisdiction over the bridges.

Chairman Gallaher of the Finance Committee reported receipt from County Treasurer Kline of a check for \$960, being amount of the borough's share of the 1918 liquor license fees. Mr. Gallaher also reported that his committee had invested \$1000 of the Firemen's Relief Fund in Third Liberty Loan Bonds.

Council ordered that 100 watt Tungsten lights be placed on River street in rear of glass factory, on East Pine street and at the head of Ninth street in Fourth Ward.

It having been brought to the attention of Council that Lawrence Larnich had tapped Spruce street sewer without a permit and was running surface water into same, the Secretary was directed to notify him of this violation of the ordinance and State Health Board rules and instruct him to disconnect such sewer at once.

Council then adjourned to meet Monday evening, May 20, at 8 o'clock.

NEW HOSE WAGONS
ARRIVED LAST NIGHT

The two motor driven hose wagons purchased by council on January 16th last arrived in Clearfield last evening and will be turned over to the Second and Third ward Hose companies just as soon as council is satisfied the machines are all right and according to specifications.

The new machines were purchased from Gerald F. Wallace, of the Central Garage, and the local agent of the Republic motor truck. They are standard one and one-half ton Republic trucks equipped with Northern Fire Apparatus Equipment company's fire equipment.

The trucks were driven from Cleveland, Ohio, Mr. Wallace and a driver having left Cleveland at 10 o'clock Sunday morning and arrived in Clearfield last evening shortly before 9 o'clock. The machines made the trip without incident and were much admired in the different towns they passed through en route here.

The combination hook and ladder and chemical wagon ordered at the same time from the La France Fire Engine company at Elmira, N. Y., will not be ready for delivery before the middle of July as their contract called for delivery after one hundred and fifty working days.

A FIRST CLASS BAND IS REAL NEED
OF THIS PATRIOTIC COMMUNITY NOW

The action of the Clearfield Fire Department in deciding last Friday evening to take up the community burden by organizing a band met with universal approval of our public spirited citizens, who have been appreciating the need of a creditable town musical organization ever since the Fifth Regiment band was forced to disband on account of so many of its members joining the colors.

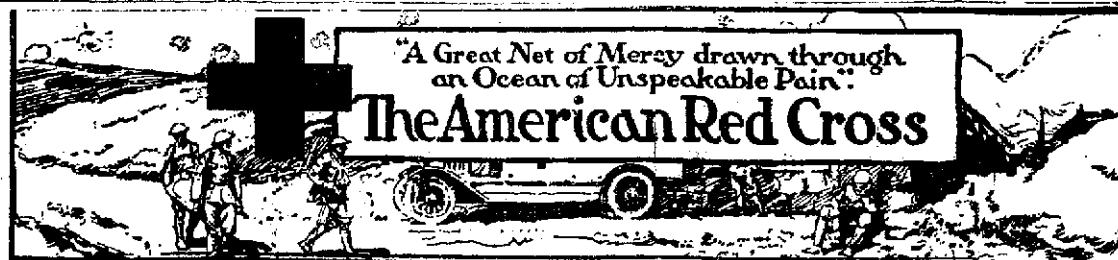

We need a good band very much and the need becomes more apparent every day and will continue so to do. The Clearfield Italian band has been attempting to supply the need and have acquitted themselves nobly and deserve great commendation for their patriotic efforts, but we need another band and are now in a fair way to get it.

There are some twenty or twenty-five old band men in the different fire companies and these will be enrolled as a nucleus for the new band. In addition thereto all local musicians will be asked to volunteer their services and we believe a large majority of the old band men will consider it their patriotic duty and again "don

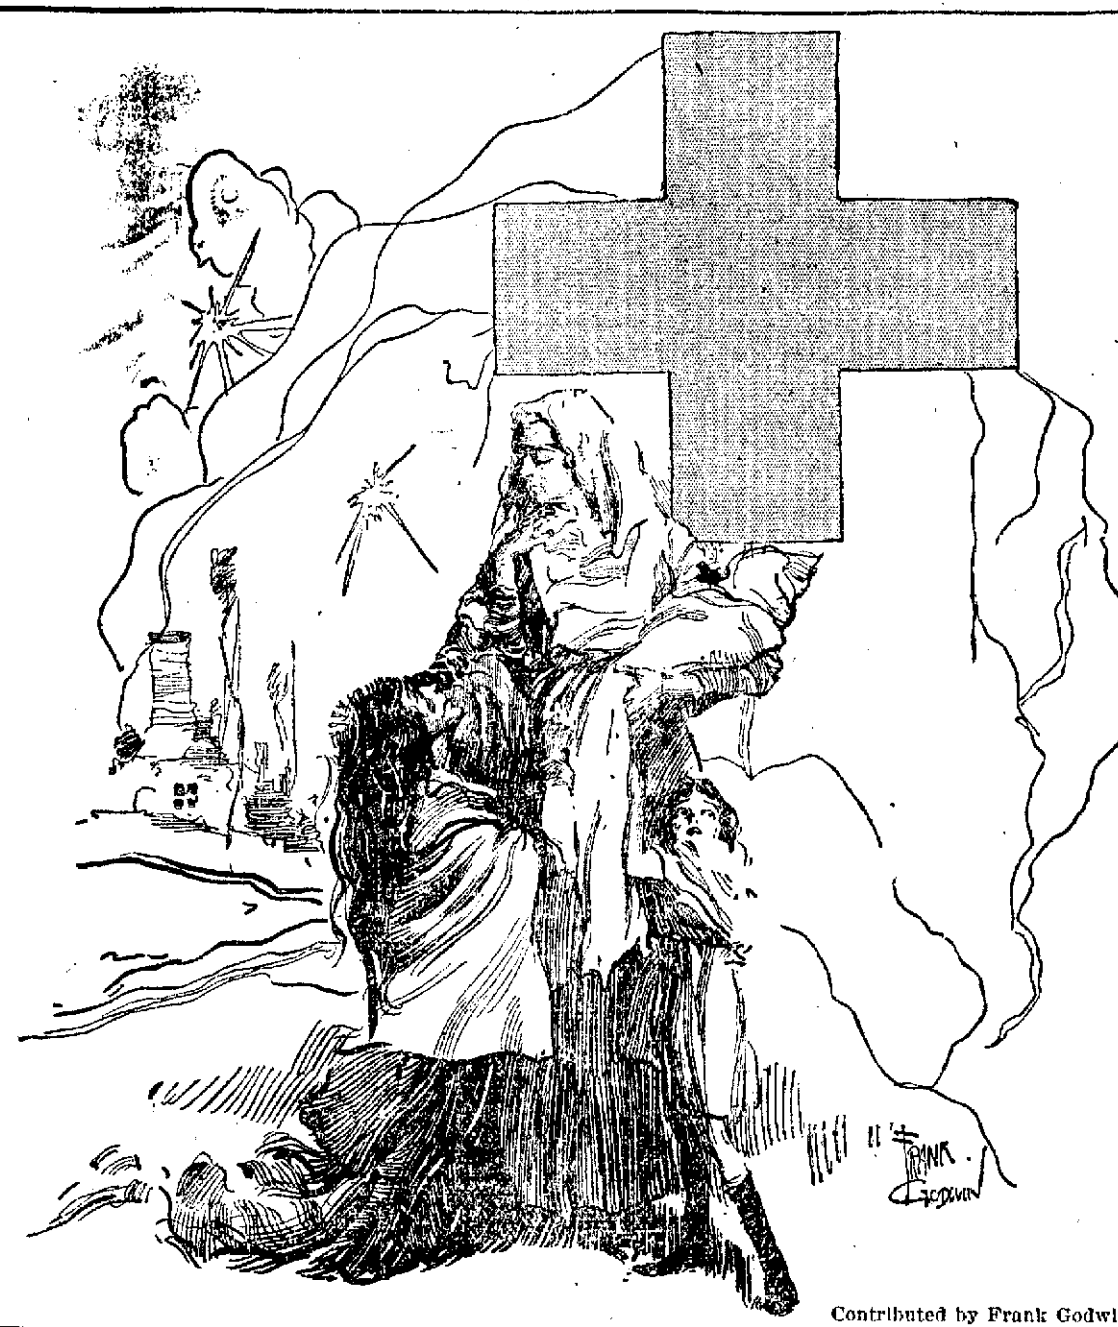

the spangles," so to speak, as a matter of community or town pride.

Let every public spirited citizen assist the firemen in their efforts. We have the material here for a first-class band and should and will have such a band if everybody will lend a hand. Boost the movement and encourage the Fire Department in the work. It means much to the town.

Many of the prospective members have their own instruments. It will be necessary to provide some others. If you feel like helping financially in the movement and desire to do so now, send or hand your subscription to The Progress. We will properly acknowledge same and have the money placed in the band treasury. Label your subscriptions Clearfield Municipal Band fund and we will do the rest. No solicitors will be employed and no hounding done, but if your patriotic feeling runs in the direction of the necessity for a good band, volunteer your financial support in the manner suggested. In the meantime boost the project. The Fire Department is going to do the rest and will guarantee you a good band.

BRING THEM TO ME

Contributed by Frank Godwin.

THE LULL BEFORE THE BIG STORM
EARLY GERMAN ATTACK LOOKED FOR

HINDENBURG'S LEGIONS RESTED AND REFORMED MAKE READY FOR DOUBLE OFFENSIVE SAYS GERMAN NEWS

WILL STRIKE FLANDERS AND ITALY

By United Press
Resumption of the German offensive on the western front may be expected very soon according to dispatches from Wm. Philip Simms today. The United Press staff correspondent with the British army in France reports that during the past few weeks Hindenburg has reorganized his shattered divisions. 140 of the 206 available German divisions have been used without the attainment of a single one of the successes promised the German people. While some of these are badly battered losses in the others were comparatively slight.

The western front was comparatively quiet again today according to General Haig's report. We captured a few prisoners and three machine guns in a successful raid last night in the neighborhood of Neippe (3 miles southeast of Arras) the British commander reported. Our troops suffered slight casualties. An attempted enemy raid near Bayelles (6 miles south of Arras) was repulsed. American troops continue to pour in, the newspapers of Paris declare.

First reports of May day demonstrations in Austro-Hungary reached this country today in United Press dispatches from Copenhagen. They said that all works were suspended for the day while the workers adopted resolutions demanding an 8 hour day.

The navy department at Washington today announced the destruction of an enemy submarine by the gun crew of the steamer Tide water on March 17. Three shells sent the submarine to the bottom, the statement said.

By Frank J. Taylor
With the American army in

the Lorraine sector, May 7—The enemy is showing uneasiness along the left bank of the Meuse in the Verdun sector. This is manifested every night by the use of brilliant lights and by much artillery and machine gun firing and aeroplane activity. In the sector northwest of Toul there is heavy firing in the vicinity of Seicheprey. The Germans temporarily captured ground here but it was won back by Franco-American counter attacks. American patrols reported the German lines are sparsely held on all the American sectors indicating the enemy has drawn all the men possible from the entire front here to fill up gaps in the Picardy front. This probably accounts for their uneasiness.

Paris, May 7—There was mutual artillery on both sides of the Aisne. The French war office reported today. West of Hangard-en-Santerre (where American troops are in the lines) a German surprise attack failed. Local operations resulted in the taking of some enemy prisoners.

SERIOUS CONDITION IN AUSTRIA

Zurich, May 7—Reports from various sources declared that conditions in Austria are becoming serious. Revolutionary tendencies continue to crop out. The Austrian government denies the reports, saying the situation is calm, and that it has taken no measures to nip in the bud these manifestations.

FOR RENT—House located near mine in Lawrence township for rent to miner. Call Austin Haney at Commercial office or Turnpike avenue.

FOOD ADMINISTRATION SAYS NEED
FOR SUGAR SAVING IS URGENT

That there is urgent need to conserve sugar is shown in the following telegram from State Food Administrator Heinz to County Administrator, which supplements the general order issued yesterday and which also appears herewith:

Philadelphia, Pa. May 6
JOHN F. SHORT,
Clearfield, Pa.

If we are to successfully meet the heavy sugar demands of the fruit preserving season we must at this time begin to accumulate a surplus in the hands of the trade which we cannot do if consumers are allowed to purchase and use sugar freely. Grocers are accordingly forbidden to sell sugar in quantities greater than two to five pounds to town trade or five to ten pounds to rural trade and any violation of this rule by any grocer regardless of the amount he may have on hand will invite drastic retributive action by the food administration. As a sugar conservation measure the service in public eating places of sherbets and water ices and their commercial manufacture is strictly forbidden. Public must understand that the sugar shortage is real and acute and it is imperative that family consumption for ordinary uses be kept down to at least twenty per cent. below normal. Only in this way can we take care of home preserving requirements.

HEINZ

Washington, May 6—Further curtailment of sugar consumption was ordered today by the United States food administration, effective May 15, when all manufacturers using sugar except for essential food products will be limited to 80 per cent of their normal supply. This ruling will be retroactive to January 1, 1918, so that the actual curtailment between now and the end of the year will be much greater.

A cut of 50 per cent of normal will be ordered in the cases of firms which have been established or expanded between November 1917 and April 1918, in the face of an actual sugar shortage.

Those who entered the business since April 1918, or since the United States declared war will be cut off entirely.

These definite classifications protect the patriotic manufacturer who has been observing the requests of the food administration against competitors who have taken advantage of

the sugar shortage to increase their profits.

The so-called nonessentials that will be limited include confectioneries and soft drinks of every description; but the food administration does not believe the action will mean any cut in production. The use of glucose and saccharine is expected to make up the difference.

The essentials that will not be limited in their use of sugar are:

Some preservers and packers of vegetables, catsup and chili sauce, fruits and milk, manufacturer of jam, jelly and preserves, tobacco and preserves, apple butter, and glycerine, ice cream, not including sherbets and water ices, druggists, for medicine and producers of honey.

Ice cream is put in the preferred class to assure consumption of surplus milk supplies and thus encourage dairy interests to maintain production. Tobacco was placed in this class largely because the amount of sugar used by tobaccoists is almost negligible, the chief source of sweets being molasses.

Control of distribution will be in the hands of the Federal food administrators of each state. They will issue certificates to all manufacturers requiring sugar upon delivery of sworn statements showing the amounts to which each is entitled. None of the distributing agencies will be allowed to sell sugar to any class of manufacturers except upon delivery of certificates. The certificates cover the period from May 15 to July 1, when new conservation measures may be deemed advisable.

All sellers of sugar, whether refiners, jobbers, retail or wholesale grocers, must cancel the certificates and return them within one month after the sale to the Federal food administrator by whom they were issued. From the returned certificates he will be able to check the record of those who are entitled to sugar and to detect any trading in or counterfeiting of certificates.

Manufacturers are being required to report the amount of sugar they held on January 1, 1917, and receipts from that date until July 1. Subtracting the amount on hand July 1 will give the total consumption for the first six months of 1917. They must also report stocks on hand January 1, 1918, and receipts since that date. From those figures the administrators will be able to determine the additional amount of sugar to which the manufacturers are entitled.

FOLLOWING IS A COMPLETE LIST OF THE
CANDIDATES TO BE VOTED FOR MAY 21

Following is the official list of candidates for the different state and district offices as their names will appear upon the ballots, for Clearfield county at the primary election to be held Tuesday, May 21st, 1918:

Governor

Robert Patton Haggood, R.	Bradford
Henry O'Neil, R.	McKeesport
William C. Sproul, R.	Chester
Asa A. Weimer, R.	Lebanon
Eugene C. Bonniell, D.	Philadelphia

THE NEXT CALL

* Washington, May 7.—A call for 4,060 men to fill vacancies in the civil engineers, ordnance and quartermaster corps was sent out today by Provost Marshal General Crowder. Men will be called from all states except Arizona, Delaware and Vermont. They will entrain May 20.

41 NAMES ON CASUALTY LIST

By United Press
Washington, May 7.—Today's casualty list contained a total of 41 names including 4 deaths in action, 2 from wounds, 1 missing, 15 seriously wounded and 19 slightly wounded. Joseph Schubert of Ford City was named among the seriously wounded.

BOY SCOUTS CALLED TO ARMS

By United Press
New York, May 7.—President Wilson in a letter made public here today assigns the 350,000 boy scouts of America to the task of finding walnut timber for the war department. Black walnut the letter said is used by the Ordnance department of the army for the manufacture of gun stocks and by the Signal corp for propellers for aeroplanes.

TUESDAY EVENING, MAY 7, 1918.

A good soldier obeys orders; a good citizen will help, not obstruct, in the observance of food saving rules.

Our boys will junk the Junkies if you pay your Income Tax early.

GO TO WORK OR GO TO JAIL

Every loafer in our town and Clearfield county must go to work! Man-power counts for more today than it ever did. Every ounce of energy is needed to help to win the war. The man in this town and county who doesn't work willingly must work unwillingly. Our farms need hands. The food crops they produce are essential to war winning. There is no room here for idlers.

Throughout the Nation there is a detestation for the man who is content to be idle, who is willing to merely be a loafer during the supreme hour of human history. Pennsylvania must not allow idlers to find in this state the refuge denied them in others. Clearfield county must not tolerate the labor slackers who have left other parts of the state.

"Go to work or go to jail," is the crisp expression used by sheriffs, chiefs of police, city marshals, mayors, governors and various officials all over the United States in announcing the intention to war upon idlers in their territory. That policy must be adopted here. Boys from this town and county are fighting to win and it is little enough to demand that every man at home must work to win the war. Give idlers the choice of jail and the rock-pile, or of good, faithful work on farms in this county. Such men may not be the most desirable kind of labor. But they can help some, and what they can do is just that much added to the sum total of America's war-winning energy. We have a long, hard job. No idlers and no idling in our town! All shoulders to the wheel!

COURT NOTES

W. W. Uncapher, through his attorney J. E. O'Laughlin and William J. O'Laughlin in the Clearfield county court yesterday against E. E. Hauck in which \$150 is asked for damages caused when the latter's automobile side-swiped Uncapher's Ford. The statement recites that the plaintiff was the proud possessor of a brand new Ford on July 29, 1917, and while transporting passengers between Burnside and Mahaffey on that date was side-swiped and bounced into the ditch by Hauck's big car. The resultant damage to the Ford cost \$37; loss of business due to the accident amounted to \$30, and the remainder of the \$150 is figured in for damage to feelings.

W. J. Swoope, Esq., on behalf of J. C. Hockenberry, filed a petition in the Prothonotary's office yesterday morning in which the latter asks for a divorce from his wife, Mrs. Minnie Hockenberry, alleging among many other things that his wife treated him cruelly and barbarously endangered his life, interfered with his pursuit of happiness and cavorted about to such an extent that she rendered his position intolerable and life a burden. That while his wife had no affection for him she lavished oceans of affection on one George Sweigart and divers and sundry other fellows to

him unknown.

Judge Bell made an order Monday allowing the Supervisors of Knox township to raise the tax millage for road purposes from 10 to 15 mills, the Supervisors having petitioned the Court for such permission alleging that their roads were in such condition that 10 mills would not take care of them.

LEMON JUICE IT SKIN WHITENER

Cheap home made beauty lotion to remove tan, freckles, sallowness.

At the cost of a small jar of ordinary cold cream one can prepare a full quart of the most wonderful lemon skin whitener and complexion beautifier, by squeezing the juice of two fresh lemons into a bottle containing three ounces of orchard white. Care should be taken to strain the juice through a fine cloth so no lemon pulp gets in, then this lotion will keep fresh for months. Every woman knows that lemon juice is used to bleach a darkened skin and remove such blemishes as freckles, sallowness and tan and is the ideal skin softener and beautifier.

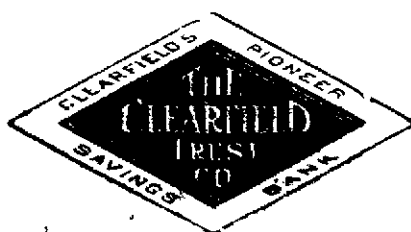

Just try it! Get three ounces of orchard white at any drug store and two lemons from the grocer and make up a quart of this sweetly fragrant lemon lotion and massage it daily into the face, neck, arms and hands. It is marvelous to whiten rough, red hands.

Business And The War

Business efficiency is demanded today as never before. Not "business as usual," but record production is required to win the War. Boundless opportunity exists, enthusiasm and energy are at a premium.

The specialized facilities, experiences and services of this Institution are available to the sound, progressive business interests of this community.

Our Officers invite you to look upon this as in every sense a bank of service.

THE EMBLEM OF HUMAN MERCY

By SAMUEL GOMPERS

The Red Cross is an emblem typifying human mercy and sympathy. Its mission to relieve physical pain and minister to mind and body has given it a place deep in the hearts of all our people. For those whose dear ones are in places of great danger it is a comfort to know that the American Red Cross is performing more effective service on a larger scale than ever before.

In addition to serving our enlisted forces, it is assisting in the work of civil relief among our allies whose soil is being devastated by the fighting.

Thus the Red Cross is helping to interpret the constructive spirit of our Republic which holds sacred human life and the ideals it seeks.

As time goes on the scope of the work of the Red Cross in Europe will increase in order that the organization may meet the demands that will be made upon it. It must receive the full and hearty support of the American people. It is only through such an agency that we can be assured relief and necessary ministrations to our young men forming our military force.

It is my sincere desire that adequate funds will be secured for the work of the Red Cross.

Samuel Gompers

THE RED CROSS SPIRIT SPEAKS

By JOHN H. FINLEY.

I kneel behind the soldiers' trench
I walk with shambles' smear and stench
The dead I mourn.
I bear the stretcher and I bend
O'er Sammy, Pierre and Jack and mend
What shells have torn.

I go wherever men may dare, I go wherever woman's
care
And love can live.
Wherever strength and skill can bring
Surcease to human suffering
Or solace give.

I am your pennies and your pounds;
I am your bodies on their rounds
Of pain afar;
I am you, doing what you would
If you were only where you could—
Your avatar.

The cross which on my arm I wear,
The flag which o'er my breast I bear,
Is but the sign
Of what you'd sacrifice for him
Who suffers on the hellish rim
Of war's red line.

Newest Devices of Surgery For Our Wounded Soldiers

Nitrous Oxide and Fluoroscope at Hand to Give American Wounded All Chance in World.

The best is none too good for the wounded American soldier. That is the Red Cross idea. The minute science finds an improvement in surgery it is adopted in the Red Cross army hospitals, which are models of up-to-the-minute completeness.

This fact is vividly emphasized in a recent news dispatch from Reginald Wright Knuffman, author of "The House of Bondage," Knuffman had been allowed to accompany a badly wounded friend into the operating room.

"Come on," said the interne; "your friend's in there. He's about played out; can't stand chloroform or ether. Got to give him nitrous oxide."

"I knew that for a patient whose resistance has been diminished the difference between the old anesthetics and this new one is frequently the difference between life and death, but I also knew that nitrous oxide is not on our army list and that no supplies existed a year ago in France."

"The Red Cross is just up to a plant here," explained the interne. "He opened a window. Put him on the operating

table, and the surgeons were at work. "They're after that abdominal wound," the interne told me. "They're working with the fluoroscope." "Above Bill's upturned feet and about a yard away stood an X-ray apparatus. Its flash-piercing light fell on a disk of metal that an orderly held over Bill's bare waist. The violet rays passed through the disk and into the patient's abdominal cavity. The surgeon's eyes followed them through the metal and into the flesh. His knife-plying fingers worked under the disk and deep in the wounded man's belly. He cut with that solid plate for a window.

"He can see what he's after before he gets started," my guide exclaimed, "and if he overlooks any shell fragments there is a magnetic contrivance that sounds a buzzer when he gets near them."

"It would be all right," they told me. Thanks to the fluoroscope and the nitrous oxide a stay here under treatment and then a rest at one of the Red Cross convalescent camps by the sea-side would fit Bill for a return to the trenches.

June Houghton, the town's woman, Secretary of the U. S. A. at special meetings, can rifle shot in the world. Teaching tennis, basketball, and other sports, she is a marksman and the only woman in the county to a number of New York State records. She is to be present every woman in the county. B. Order of the Council

LETTERS FROM OUR SOLDIER BOYS

LETTER FROM BLAIR RENAUD

France, April 1, 1918

Dear Mother
I will now drop you a few lines to let you know that I am well and hope when this letter reaches you that it will find you all the same.

Well we are having a little rest now, for we have been at the front for ten long days and we got very little sleep. As you may guess how it is to go on for the first time. A fellow feels a little bit uneasy, but I will soon get accustomed to it and not mind it at all.

I could not say whether I killed any Boches or not but I shot at them anyway. Well, the trenches aren't so very bad when it's nice dry weather but it's awful when it rains. But of course we were in a quiet sector and the Boches didn't care much about fighting with us.

You loving son,
BLAIR RENAUD
France
Co. 1, 9th U. S. Inf., A. I. I.

OBITUARY

Mrs. Ada, wife of Edward Bensing, died at the home of her parents, Mr. and Mrs. Isaac Poole, in Paradise, on Wednesday, April 24, 1918, aged 39 years 1 month and 8 days.

The deceased had been in failing health for more than a year and while her death was not unexpected it was a sad blow to her loved ones. She was a Christian woman and leaves a husband, Edward Bensing, of Akron, Ohio, and two sons, Edward and Ray, to mourn the loss of a loving wife and mother.

She is also survived by her parents, John and Mary Poole, of Paradise, her sister, Mrs. Charles Brown, Mrs. Daniel Whitman, and Miss Alice Poole, all of Akron, James, Isaac and Charles Poole of Clearfield, and Hughie of Camp Lee, Va.

Rev. Service of the West Side Methodist church conducted her funeral service on Saturday following her demise. Interment in Hillcrest cemetery.

"A precious one from us has gone
A voice we loved is stilled
A place is vacant in our home
Which never can be filled."

God in His wisdom has recalled
The boon his love had given,
And though the body moulders here
The soul is at its heaven.

The St. Louis Women's Rifle Squad has been organized by 100 society women and girls of that city.

"SEE 'GETS-IT' PEEL OFF THIS CORN"

Leaves The Toe as Smooth as the Palm of Your Hand

The corn never grew that "Gets-It" will not get it. It never irritates the flesh never makes your toe sore. Just two drops of "Gets-It" and presto! the corn-pain vanishes. Shortly you can peel the corn right off with your finger.

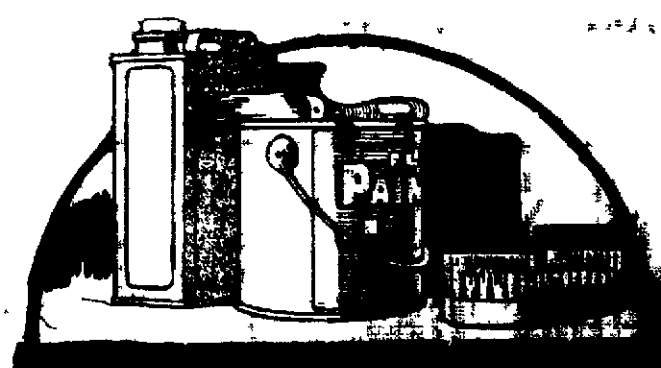

It's Wonderful to See "Gets-It" Peel Off Corns!

er and there you are—pain-free and happy with the toe—smooth, red and free as your palm. Get it! It is the only safe way in the world to treat a corn or callus. It's the sure way—no way that never fails. It's then and there—used by millions—every year it saves thousands of feet from cutting and digging at a corn, and fussing with bands, salve or anything else entirely unavailing.

Get it, the guaranteed money-back corn remover, the only sure way to get rid of a corn or callus. It's a little of the drug store. It's in the first aid kit. It's in the first aid kit. It's in the first aid kit.

Nieman's Underselling Store

Footwear That Seems To Breathe of the New Season

Maybe your new clothes are just in the making, or you've already made up your mind to purchase. Unquestionably you've also determined whether you will want the new high tops or Oxfords. However, it makes little difference here whether you prefer one style or another.

PATENT LEATHER OXFORDS \$5

Six eyelet lace style; welted leather soles and imitation wing tip, military heels. These are smart for wearing with tailored as well as afternoon frocks.

BROWN PUMPS, \$5

This is a rich shade of deep brown and is among the first favorites in the store. Of a light weight calfskin; military heels.

WOMEN'S OXFORDS \$4.50

For the woman who does much walking of an afternoon and wants a pretty shoe. Mahogany or black; medium height heels.

Other shoe prices \$2.58 to \$5

SPRING OXFORDS AT \$5

This model is of tan calfskin in the season's new lasts, with six eyelets. Has a medium heel and welted sole. Look especially striking with the striped sports hosiery.

The Loyal Temperance Legion will give an entertainment in the Methodist church Thursday evening beginning at 7:30. Admission 15c and 25c. Proceeds for the benefit of the war orphans. The entertainment is worthy of a good attendance, so turn out and help the legion along in their effort to raise money for such a worthy cause.

Life is not merely to live but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal, before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have sallow skins, blotchy disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Drink glass of hot water before breakfast to wash out the poisons

LIFE IS NOT MERELY TO LIVE BUT TO LIVE WELL, EAT WELL, DIGEST WELL, WORK WELL, SLEEP WELL, LOOK WELL. WHAT A GLORIOUS CONDITION TO ATTAIN, AND YET HOW VERY EASY IT IS IF ONE WILL ONLY ADOPT THE MORNING INSIDE BATH.

FOLKS WHO ARE ACCUSTOMED TO FEEL DULL AND HEAVY WHEN THEY ARISE, SPLITTING HEADACHE, STUFFY FROM A COLD, FOUL TONGUE, NASTY BREATH, ACID STOMACH, CAN, INSTEAD, FEEL AS FRESH AS A DAISY BY OPENING THE SLUICES OF THE SYSTEM EACH MORNING AND FLUSHING OUT THE WHOLE OF THE INTERNAL POISONOUS STAGNANT MATTER.

EVERYONE, WHETHER AILING, SICK OR WELL, SHOULD, EACH MORNING BEFORE BREAKFAST, DRINK A GLASS OF REAL HOT WATER WITH A TEASPOONFUL OF LIMESTONE PHOSPHATE IN IT TO WASH FROM THE STOMACH, LIVER, KIDNEYS AND BOWELS THE PREVIOUS DAY'S INDIGESTIBLE WASTE, SOUR BILE AND POISONOUS TOXINS; THUS CLEANSING, SWEETENING AND PURIFYING THE ENTIRE ALIMENTARY CANAL, BEFORE PUTTING MORE FOOD INTO THE STOMACH. THE ACTION OF HOT WATER AND LIMESTONE PHOSPHATE ON AN EMPTY STOMACH IS WONDERFULLY INVIGORATING. IT CLEANS OUT ALL THE SOUR FERMENTATIONS, GASES, WASTE AND ACIDITY AND GIVES ONE A SPLENDID APPETITE FOR BREAKFAST. WHILE YOU ARE ENJOYING YOUR BREAKFAST THE WATER AND PHOSPHATE IS QUIETLY EXTRACTING A LARGE VOLUME OF WATER FROM THE BLOOD AND GETTING READY FOR A THOROUGH FLUSHING OF ALL THE INSIDE ORGANS.

THE MILLIONS OF PEOPLE WHO ARE BOTHERED WITH CONSTIPATION, BILIOUS SPELLS, STOMACH TROUBLE, RHEUMATISM, OTHERS WHO HAVE SALLOW SKINS, BLOTCHY DISORDERS AND SICKLY COMPLEXIONS ARE URGED TO GET A QUARTER POUND OF LIMESTONE PHOSPHATE FROM THE DRUG STORE WHICH WILL COST VERY LITTLE, BUT IS SUFFICIENT TO MAKE ANYONE A PRONOUNCED CRANK ON THE SUBJECT OF INTERNAL SANITATION.

DRINK GLASS OF HOT WATER BEFORE BREAKFAST TO WASH OUT THE POISONS

EVERYONE, WHETHER AILING, SICK OR WELL, SHOULD, EACH MORNING BEFORE BREAKFAST, DRINK A GLASS OF REAL HOT WATER WITH A TEASPOONFUL OF LIMESTONE PHOSPHATE IN IT TO WASH FROM THE STOMACH, LIVER, KIDNEYS AND BOWELS THE PREVIOUS DAY'S INDIGESTIBLE WASTE, SOUR BILE AND POISONOUS TOXINS; THUS CLEANSING, SWEETENING AND PURIFYING THE ENTIRE ALIMENTARY CANAL, BEFORE PUTTING MORE FOOD INTO THE STOMACH. THE ACTION OF HOT WATER AND LIMESTONE PHOSPHATE ON AN EMPTY STOMACH IS WONDERFULLY INVIGORATING. IT CLEANS OUT ALL THE SOUR FERMENTATIONS, GASES, WASTE AND ACIDITY AND GIVES ONE A SPLENDID APPETITE FOR BREAKFAST. WHILE YOU ARE ENJOYING YOUR BREAKFAST THE WATER AND PHOSPHATE IS QUIETLY EXTRACTING A LARGE VOLUME OF WATER FROM THE BLOOD AND GETTING READY FOR A THOROUGH FLUSHING OF ALL THE INSIDE ORGANS.

THE MILLIONS OF PEOPLE WHO ARE BOTHERED WITH CONSTIPATION, BILIOUS SPELLS, STOMACH TROUBLE, RHEUMATISM, OTHERS WHO HAVE SALLOW SKINS, BLOTCHY DISORDERS AND SICKLY COMPLEXIONS ARE URGED TO GET A QUARTER POUND OF LIMESTONE PHOSPHATE FROM THE DRUG STORE WHICH WILL COST VERY LITTLE, BUT IS SUFFICIENT TO MAKE ANYONE A PRONOUNCED CRANK ON THE SUBJECT OF INTERNAL SANITATION.

DRINK GLASS OF HOT WATER BEFORE BREAKFAST TO WASH OUT THE POISONS

LIFE IS NOT MERELY TO LIVE BUT TO LIVE WELL, EAT WELL, DIGEST WELL, WORK WELL, SLEEP WELL, LOOK WELL. WHAT A GLORIOUS CONDITION TO ATTAIN, AND YET HOW VERY EASY IT IS IF ONE WILL ONLY ADOPT THE MORNING INSIDE BATH.

FOLKS WHO ARE ACCUSTOMED TO FEEL DULL AND HEAVY WHEN THEY ARISE, SPLITTING HEADACHE, STUFFY FROM A COLD, FOUL TONGUE, NASTY BREATH, ACID STOMACH, CAN, INSTEAD, FEEL AS FRESH AS A DAISY BY OPENING THE SLUICES OF THE SYSTEM EACH MORNING AND FLUSHING OUT THE WHOLE OF THE INTERNAL POISONOUS STAGNANT MATTER.

DRINK GLASS OF HOT WATER BEFORE BREAKFAST TO WASH OUT THE POISONS

NEWS OF OUR NEIGHBORS CURWENSVILLE

Abner Bloom was home from Indiana and spent a day or two with his parents, Mr. and Mrs. F. P. Bloom at Ferncliff.

Mrs. William Bartell is confined to the house suffering an attack of tonsillitis.

H. R. Dasher, of Harrisburg, salesman for T. H. Vanneman & Co., of Philadelphia, was calling on customers in town yesterday.

Mr. and Mrs. William Deter and Mr. and Mrs. James Milliron returned home Sunday from a visit with friends in Johnstown.

Mrs. D. B. Ogdon, of Clearfield, visited her sister, Mrs. Archie Bloom, Saturday.

Mr. and Mrs. Alfred Bloom and Mr. and Mrs. Fred Patterson of New Millport, were Sunday visitors at the home of Mr. and Mrs. Jared Bloom.

F. P. Robinson who was taken suddenly ill Saturday evening suffering acute indigestion, is able to be around again.

Mr. and Mrs. F. P. Bloom, daughters Miss Leah and Rose, and son Nolen, motored to Marion Sunday and spent the day at the home of Mrs. Bloom's brother, James Nolen.

The carnival last night was well attended.

Mrs. Kate Gordon, of Hastings, N. Y., who was visiting her cousin, Mrs. F. P. Bloom, left Sunday for Marrow where she will visit relatives and friends.

Mrs. James Derrick and Mrs. Frank Thompson, of Grampian, were Saturday visitors at the home of Mr. and Mrs. Scott McPadden.

The Loyal Temperance Legion will give an entertainment in the Methodist church Thursday evening beginning at 7:30. Admission 15c and 25c. Proceeds for the benefit of the war orphans. The entertainment is worthy of a good attendance, so turn out and help the legion along in their effort to raise money for such a worthy cause.

Life is not merely to live but to live well, eat well, digest well, work well, sleep well, look well. What a glorious condition to attain, and yet how very easy it is if one will only adopt the morning inside bath.

Folks who are accustomed to feel dull and heavy when they arise, splitting headache, stuffy from a cold, foul tongue, nasty breath, acid stomach, can, instead, feel as fresh as a daisy by opening the sluices of the system each morning and flushing out the whole of the internal poisonous stagnant matter.

Everyone, whether ailing, sick or well, should, each morning before breakfast, drink a glass of real hot water with a teaspoonful of limestone phosphate in it to wash from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and poisonous toxins; thus cleansing, sweetening and purifying the entire alimentary canal, before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases, waste and acidity and gives one a splendid appetite for breakfast. While you are enjoying your breakfast the water and phosphate is quietly extracting a large volume of water from the blood and getting ready for a thorough flushing of all the inside organs.

The millions of people who are bothered with constipation, bilious spells, stomach trouble, rheumatism, others who have sallow skins, blotchy disorders and sickly complexions are urged to get a quarter pound of limestone phosphate from the drug store which will cost very little, but is sufficient to make anyone a pronounced crank on the subject of internal sanitation.

Drink glass of hot water before breakfast to wash out the poisons

Marcel Gets His Barn Mended

Red Cross Helps This 15 Year Old French Boy—and His Family.

Marcel is a man. He is just fifteen years old, but yet he is a man. I say he is a man because in the last four years' time has burned into his child heart marks that should wait for stern maturity. He is a man because he has the responsibility of a woman. He has no father. The Germans saw to that. Marcel has had to stand by and see his small brothers and baby sister ask in vain for food while he fought off the pressing call from his growing boy's stomach. He has had to see tears from his mother's eyes drop on the plowed ground as she worked the soil his father would have tilled had he not gone away out of the peacefulness of the Marne valley into the iron hall of the Aisne and on into the here-after.

The boy, who was now a man, worked hard, yes, too hard. With his hairless hands and his boy's strength he fought almost alone the unequal fight against want with what little help his frail mother could give.

Mother Can Keep Children.

One of the 70 or 80 local societies in France, handicapped by lack of funds because deluged by calls for help, tried to relieve the family by taking away the children. But to the torture twisted brain of the woman this seemed like losing all she had.

And then when everything seemed lost and despair came they heard the news: "No, it could not be true. They would help them with food and clothing? They would till the soil? Mend the barns and stay near by to see that things went well?" Yes, and the children could stay, said the Red Cross, as they had said to hundreds of others.

That was two years ago. Today this family is self supporting and has some to spare for the more needy ones, who still are being helped. Little Jean is taller. He looks well fed—and he is well fed. The baby is so roly poly that the dimples have come again. They are in good spirits—on their feet once more.

And Marcel. He has finished the course that the Red Cross gave him in an agricultural school. It is he who has been running the farm so well. He did it all. At least they let him think so, for heaven knows he has seen the bottom of the bitter cup. And I know that the Red Cross will want me to say he did it, for that is the way they work—quietly, earnestly, efficiently, without stint, without waste, without boast.

THE LITTLE OLD LADY OF PANSY SQUARE

Timidly she entered the Red Cross Bureau and stood just within the doorway.

Her poor, dimmed, old eyes spoke so eloquently: "I'm friendly, ladies, but a little afraid."

Several of us rose, but Mrs. Crawford reached her first and asked her to come in and sit down.

"Oh, thank you so much," quavered the old lady as she sat down. "You see, my boy—my grandson—has gone and"—with Spartan fortitude she restrained the tears that glistened in her eyes—"gone with his regiment. Now I'm all alone in my little cottage in Pansy Square. And, oh, ladies, do any of you know the dreary loneliness when there is no one who comes home at night?"

We almost hugged the dear old lady, so forlorn, yet so brave. We drew up our chairs closer, and she told us her story.

The little old lady owned a vine embowered cottage in Pansy Square. There she kept house for her grandson, who worked in a downtown office. When America took up cudgels for democracy the lad, in patriotic fervor, was among the first to enlist.

"Ah, how I loved him and needed him!" whispered the old lady brokenly. "But my dear country needed him more. So I told him to go. 'But what will you do, granny?' he asked. I told him I had enough, and so he went. Brave, brave heart! My husband was a soldier, and I have his pension. But it is small. After paying the taxes on my cottage there was little left, and now it is gone. I'm old, but I'm willing. All I ask is a chance to earn my bread till—till he returns."

Through the Home Service workers of her community the little old lady, with simple tasks, such as making preserves and delicious cakes and jellies, a labor of love for her and an unfailing source of revenue.

Some day, please God, her soldier boy will come back to the little old lady of Pansy Square, and he will find her as he left her—happy, comfortable and self reliant.

Offering More Than 1000 Yards To Be Sold in Three Days at Prices That Make New Frocks Possible

You who have shared in the savings and values offered by this store in the past need no urging to be among the first in attendance at this sale.

We knew months ago that silks would be more popular than ever before, and purchased silks away under today's prices. By these early preparations you are offered this opportunity of securing these unusual silks at prices even more remarkable than if we had delayed our preparations till spring. We have also gathered together all short length and odd pieces of silks and marked them at greatly reduced prices for quick clearance.

The prices quoted here remain until Saturday. Next Monday they return to full, regular costs.

THIS MAY SILK SALE PRESENTS BY FAR THE GREATEST VALUES OF THE SEASON—SO COME

SEE THE TABLE OF SILKS IN SHORT LENGTHS

On this table there are messalines, taffetas, satins, bengalines, foulards, crepes, etc. in plain colors, plaids and fancy figures in short lengths from 1-2 yard to 15 yard pieces, in the large pieces you may buy any amount you desire. These are marked at almost 1-2 price.

GASS OF SALTS CLEANS KIDNEYS

If your Back hurts or Bladder bothers you, drink lots of water

When your kidneys hurt and your back feels sore, don't get scared and expect to load your stomach with a lot of drugs that excite the kidneys and irritate the entire urinary tract. Keep your kidneys clean like you keep your bowels clean, by flushing them with a mild, harmless salts which removes the body's urinous waste and stimulates them to their normal activity. The function of the kidneys is to filter the blood. In 24 hours they strain from it 500 grains of acid and waste, so we can readily understand the vital importance of keeping the kidneys active.

Drink lots of water—you can't drink too much; also get from any pharmacist about four ounces of Jad Salts; take a tablespoonful in a glass of water before breakfast each morning for a few days and your kidneys will act fine. This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to clean and stimulate clogged kidneys; to neutralize the acids in urine so it no longer is a source of irritation, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure; makes a delightful effervescent lithia-water drink which everyone should take now and then to keep their kidneys clean and active. Try this, also keep up the water drinking, and no doubt you will wonder what became of your kidney trouble and backache.

HEAR ME, YE WINDS AND WAVES

Those who know Handel only through the "Largo" and "The Messiah" will be delighted to hear Witherspoon sing the declamatory passages of this majestic melody. A 12-inch Red Seal \$1.50. No. 74513.
